PEOPLE AND PETS TOGETHER — WE HELP KEEP THEM THAT WAY

Pets are more than roommates. They're family. We know the indelible, unconditional love we feel when we see our favorite wagging tail. We also know the paralyzing fear when they don't come home. Sure, today's technology provides some solutions. **But the truth is, a simple engraved tag remains the easiest, most reliable, most cost-effective way to reunite us with our best friend.**

We help veterinarians and animal shelters provide this instant, invaluable service to your pet parents. At the same time, we help veterinarians grow their businesses and shelters fulfill their missions. **With over 20 years in the business and millions of tags sold, VetScribe remains the leading solution to help your clinic or shelter keep people and pets together.**

PACKAGING

Three Packaging Options

1 BULK

Shipped in bundles of 25 without retail packaging. Painted and aluminum tags are shipped tightly zip tied, and our other tags are shipped in fitted plastic carriers. Bulk is our lowest price option. We suggest storing tags in our Tag Caddy, and merchandising a sample of each tag on one of our Tag Easels for customers to shop.

2 BAG

Shipped in bundles of 5. Each tag is individually bagged with a UPC barcode on the outside of the bag so they can be scanned through a register. We suggest storing tags in our Tag Caddy, and merchandising a sample of each tag on one of our Tag Easels for customers to shop.

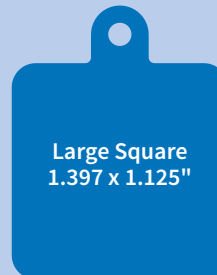

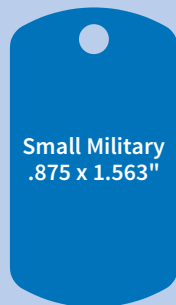

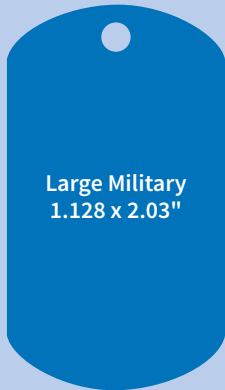

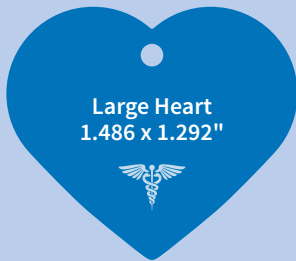

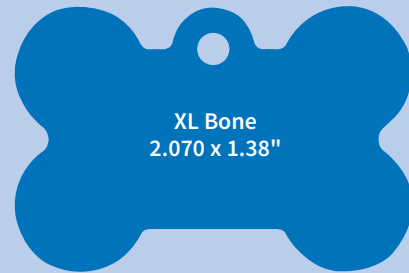

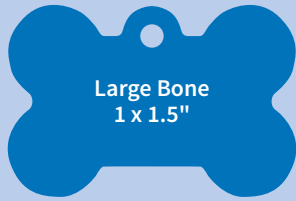

3 CASSETTE

Shipped in bundles of 5 or 10 depending on the SKU. Tags have a UPC barcode on the back of the cassette which can be scanned through a register. Cassette tags can be engraved without removing them from their packaging, and can be merchandised on any of our countertop merchandising spinners, or on our machine stand.
